Chairman's Message

We create sustainable value for our shareholders and enhance our economy and society through effective social investment.

At United Quarries Company, we aspire to make a genuine positive impact on people's lives, a principle that has been the foundation of our success over the past decades.

We focus on investing in youth development, environmental protection, and preserving our nation's rich heritage, while ensuring support for the economy and society through responsible and effective investment projects.

Our growth strategy relies on capital investment in our core sector, asphalt, where we possess deep expertise and a strong position, while diversifying our investments into supporting sectors such as innovative building material technologies, enhancing production efficiency, and promoting environmental sustainability. Furthermore, we are committed to building strategic partnerships with leading regional companies that contribute to achieving a positive and sustainable impact.

Our commitment to this balanced and sustainable growth approach, combined with our deep understanding of local market needs, our trusted track record as an investment partner, and our robust network of partnerships, reinforces United Quarries Company's position as a leader in the sector, paving the way for a brighter and more prosperous future.

Mahajer AL mutaheda Company Overview

Mahajer AL mutaheda Company is a specialized and leading company in the execution of asphalt works in the Kingdom of Saudi Arabia. Established in 2013, the company has consistently delivered exceptional services in infrastructure and roadworks, with a strong focus on quality and innovation.

The company boasts a workforce of over 279 specialized employees and manages approximately 30 operational sites strategically distributed across the Kingdom. This extensive network allows it to efficiently execute projects in various regions, including the Eastern, Central, Western, Northern, and Southern areas.

Mahajer AL mutaheda Company is renowned for applying the highest quality standards in asphalt works, earning the trust of clients and official accreditation from major governmental and industrial entities such as Saudi Aramco, the Ministry of Transport, and municipal authorities. This excellence has enabled the company to contribute to numerous major national projects that form the backbone of infrastructure development.

The company offers a comprehensive range of asphalt services, including supply, preparation, paving, and maintenance, utilizing the latest technologies and equipment to ensure projects are executed with the utmost precision and efficiency.

Mahajer AL mutaheda Company is committed to achieving customer satisfaction by adhering to deadlines, delivering high-quality results, and providing post-execution services. Its vision focuses on supporting the development of the Kingdom's infrastructure and promoting sustainable growth.

Our Ambition

To position ourselves as a global leader in designing and maintaining sustainable infrastructure that supports transportation solutions for the future.

Our Mission

Designing, building, and maintaining sustainable transportation infrastructure rooted in our local heritage is at the core of our mission. Envisioning mobility solutions means providing people with what they need to connect and paving the way for the future. Transportation infrastructure plays a pivotal role at the heart of every community, enabling it to tackle local and global challenges.

Wherever we operate, we are committed to understanding the needs and expectations of our clients, users, partners, and stakeholders. Mahajer AL mutaheda Company draws upon its expertise and skills to innovate, design, and construct efficient and responsible infrastructure that improves lives and fosters sustainable development.

Achieving progress in mobility requires a continuous and dedicated focus on innovation. One of the greatest challenges facing the world today is to create new mobility solutions that meet the expectations and demands of stakeholders, users, and clients alike.

As global leaders, our entrepreneurial spirit and drive for innovation empower us to explore all avenues of sustainable mobility for the future. We are progressively positioning ourselves as an integrated solutions provider for sustainable global mobility, readying for augmented roads and sustainable cities.

Our Values

Passion

We believe in making a positive impact that serves society and the economy while preserving the environment for future generations.

Excellence

We work with high quality and continuous improvement through learning and innovation.

Respect

We respect our country, employees, partners, and everyone we interact with.

Openness

We embrace new ideas and maintain transparency to achieve shared success.

Reliability

We have been keeping our promises for over 15 years.

Location

Mahajer AL Mutaheda Company, based in Jeddah, is the leading company in asphalt and construction materials in Saudi Arabia. Established in 2013, the company specializes in providing integrated infrastructure solutions, focusing on asphalt, paving, and construction materials.

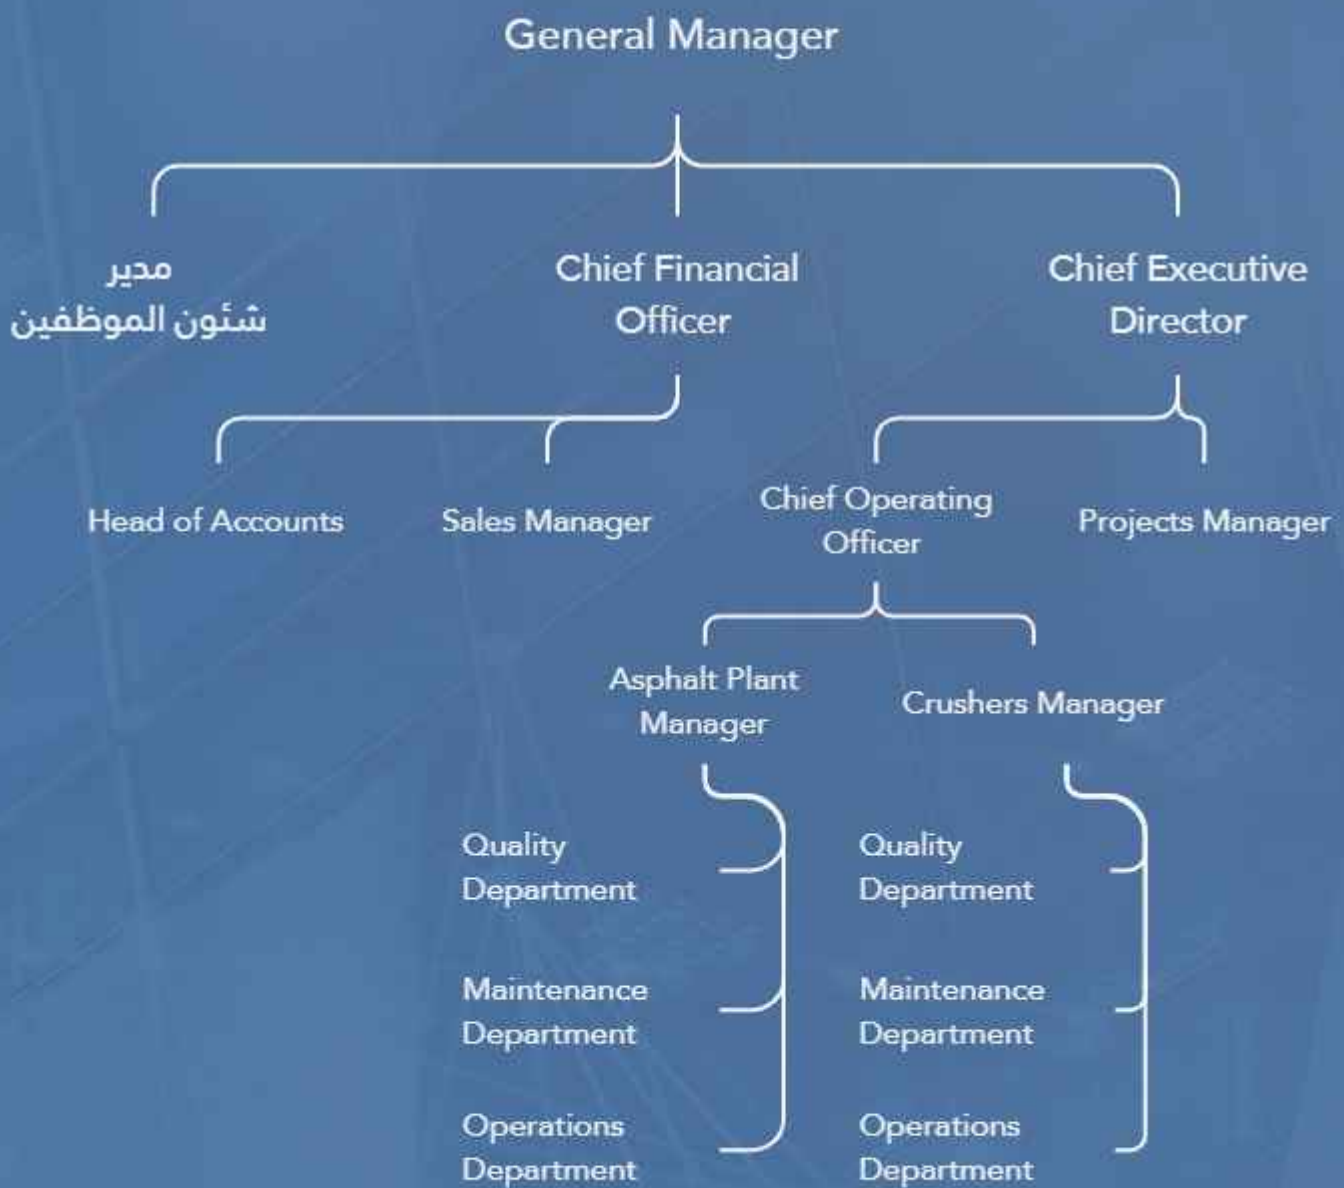

Strategically covering the Makkah region, Jeddah, and its surrounding areas, the company operates through an extensive network of factories and field sites. Mahajer AL Mutaheda Company delivers high-quality services in asphalt and construction materials, contributing to the execution of major projects in both the public and private sectors.

Why us

At Mahajer AL mutaheda Company, we are committed to delivering integrated and innovative solutions in asphalt and construction materials to help preserve the nation's resources and serve its citizens. By designing our products and developing resources intelligently, we provide peace of mind to all stakeholders with a focus on sustainability and superior quality.

We offer reliable, sustainable, and durable concrete solutions that contribute to building robust and efficient infrastructure. We believe our success lies in delivering innovative products that meet our clients' needs while enhancing the sustainability of major projects across the Kingdom.

Organizational Structure of the Company

Sustainability

Asphalt and construction materials are fundamental elements in building a sustainable future for the world. When designed and constructed correctly, concrete and asphalt structures are durable, energy-efficient, and capable of lasting for decades with minimal maintenance, even under extremely hot climates.

We ensure that sustainability is fully integrated into our operations. By investing in innovation, we aim to lead the way in providing environmentally friendly solutions. Our products and services contribute to the sustainable development of cities. We act responsibly to minimize our environmental impact and work with local communities to strengthen and support their growth.

We strive to reduce our environmental footprint by fostering a low-carbon industry, effectively responding to climate change, and utilizing resources efficiently.

Operations

Every project we complete enhances and develops our knowledge in selecting the right mixtures, materials, equipment, and the best execution methods, ensuring that the lifespan of concrete and asphalt structures exceeds our clients' expectations and matches their aspirations. Every cubic meter we implement adds to our expertise, and we have executed tens of millions of cubic meters to date. Most of our plants are fully accredited by entities such as Saudi Aramco, SABIC, Saudi Electricity Company, the Royal Commission, the Ministry of Defense, and others.

As our experience grows, our comprehensive library of asphalt and construction material formulas also expands, with many of these recipes being unique to us. No matter your needs for asphalt or construction materials, we can select or develop the perfect mixture specifically for you.

We operate through plants and production sites distributed across the Kingdom, aiming to be available for our clients wherever they work or wherever business takes them! Our long-term plan includes establishing regional bases in five main areas of the Kingdom (Eastern, Central, Western, Northern, and Southern), with business operations in all of their major cities.

Our Services

Mahajer AL mutaheda Co.Ltd offers a wide range of specialized services in road construction and maintenance, including the production of asphalt mixtures, gravel base, and construction work for pavements. The company also has extensive experience in major road projects, along with excavation, demolition, and waste management services. Our focus is on utilizing the latest technologies and equipment to ensure high quality and safety, while adhering to global standards and specifications.

Production of Basic
Construction Materials

Road Construction and
Maintenance & Major
Projects

Excavation, Demolition,
and Waste Management

Traffic Safety and
Finishing Works

First

Road Construction, Maintenance, and Major Projects

This service specializes in the design, construction, and maintenance of road networks within cities and on highways. It also includes executing major road projects such as highways and airport roads, as well as rehabilitating old roads to ensure their safety and efficiency.

Road Construction Works

This includes the design and construction of roads within cities and on highways between provinces and regions, utilizing the latest equipment and technologies.

Major Road Projects

Executing large-scale and complex projects, such as highways and airports, and handling specialized contracts, including public-private partnerships.

Road Rehabilitation

Restoring deteriorated roads by upgrading surfaces and enhancing core structures to achieve the highest levels of safety and comfort.

Road Maintenance

Encompasses routine repairs and infrastructure improvements to ensure sustainability.

Second

Production of Basic Construction Materials

This service includes the production and supply of essential materials such as asphalt mixes, granular sub-base, and crushed stone, as well as the production of crushed materials and asphalt recycling. This sector aims to sustainably provide the necessary materials for construction while adhering to high specifications.

Production of Crushed Materials

Processing and supplying high-quality crushed materials such as aggregates and sand for road and construction projects.

Asphalt Mixes

Production of various types of asphalt mixes required for road construction in compliance with standard specifications.

Asphalt Recycling

Developing and recycling old asphalt to convert it into reusable materials for road paving.

Granular Sub-base and Crushed Stone Production

Manufacturing precisely sized granular sub-base and crushed stone to meet the needs of diverse construction projects.

Thirdly

Traffic Safety and Finishing Works

This service focuses on implementing various pavement works, applying road paints, and installing horizontal and vertical traffic markings. It also includes setting up safety systems such as barriers and lighting to enhance public road safety.

Traffic Markings

Installing traffic signs and markings to ensure road user safety.

Pavement Works

Executing pavement installations using diverse materials such as cement, stone, and concrete to provide safe and comfortable pathways for pedestrians.

Operating Road Safety Systems

Installing safety systems such as barriers and directional lighting to help reduce road accidents.

Road Paints

Applying ground paints for lane marking and traffic organization using high-quality reflective materials.

Fourth
Excavation,
Demolition, and
Waste Management

This service involves the execution of excavation and demolition works for old infrastructure or site preparation for construction, as well as managing and organizing waste disposal sites. It also includes rock cutting operations for major projects like tunnels and roads.

Rock Cutting Works

Performing rock cutting and blasting operations for large projects such as road construction and tunnels.

Excavation and Demolition Works

Carrying out excavation and demolition tasks for land and old infrastructure using specialized equipment.

Debris Removal and Recycling

Removing debris from demolition works and recycling materials for use in other projects.

Waste Disposal Management

Operating and maintaining waste disposal sites to handle waste safely and in an organized manner.

Mini Compactor

Asphalt Mixing Plant

Our company owns an advanced Asphalt Mixing Plant, which enhances our ability to provide high-quality services in road construction and maintenance. This plant allows us to produce high-quality asphalt while ensuring continuous operation efficiently.

The plant is equipped with the capability to customize mixes to meet the specific needs of different projects, whether they are highway projects or the maintenance of existing roads. It also contributes to speeding up asphalt production effectively, reducing waiting times and accelerating project workflows.

The plant is equipped with precise quality monitoring systems, ensuring that the produced asphalt meets the required standards. Additionally, it supports our sustainability strategy through asphalt recycling technologies, which help reduce waste.

Through this plant, our company guarantees the delivery of asphalt projects with high quality and efficiency, while adhering to project deadlines.

Crushers

Our company, established in 2013, owns a fleet of advanced crushers that are used to process and convert raw materials such as rocks and aggregates into sizes suitable for use in asphalt and construction projects. These crushers provide the essential materials used in the production of asphalt mixes and other building materials, contributing to continuous production and reducing reliance on external suppliers.

Our crushers operate according to the highest standards of quality and efficiency, with sorting and crushing processes carried out using modern technologies that ensure the production of high-quality materials with precise specifications. This enhances our ability to meet the demands of large and complex projects more quickly and effectively.

The crushers are a key part of our strategy to achieve vertical integration, which helps reduce costs, improve project timelines, and ensure the timely delivery of construction materials and asphalt at the best possible quality.

Our Team

Al-Muhajjar United Contracting Company takes pride in employing the best talents. To achieve this goal, the company organizes recruitment campaigns and participates in local and international job fairs at recognized educational institutions to understand the current labor market vision and standards.

In addition, the company's senior management members, such as the general manager and regional directors, have a combined experience of over 20 years in the asphalt and construction materials industry. This core experience plays a vital role in knowledge transfer through mentorship, enhancing the capability of Al-Muhajjar United's employees and the company's ability to excel and innovate.

Saudization

At Al-Muhajjar United Contracting Company, we are committed to the vision of Saudization, actively working to increase the employment of Saudi nationals in our workforce. This initiative is in alignment with Saudi Arabia's Vision 2030, aiming to contribute to the local economy by creating job opportunities for Saudi citizens, both men and women. We focus on enhancing their skills through specialized training and development programs, ensuring they are well-prepared to play a key role in national projects and support the country's economic growth.

Training and Development

I-Muhajjar United Contracting Company believes that knowledge is power, which is why we offer a variety of training programs to meet the needs of the company and its projects. Our training includes both internal and external courses covering essential skills such as safety, quality management, and environmental systems. We also provide certification for Asphalt Testing Technicians . External training ensures that our employees meet international standards of competence.

Mentoring is a key part of the company culture, with employees working alongside experienced managers to acquire the leadership and management skills necessary for long-term success.

Quality Assurance

Quality Control Procedures

Al-Muhaijar United Contracting Company is a leader in the Roads and Asphalt industry in the Kingdom, adhering to strict procedures to ensure product quality in compliance with international standards. Every stage of production is monitored to ensure compliance with specifications.

Calibration System

Laboratory equipment and Asphalt plants are calibrated internally and by independent laboratories on an annual basis, with Asphalt plants being calibrated every 6 months.

Health, Safety, and Environmental Compliance

Al-Muhajjar United Contracting Company is committed to implementing and improving its Occupational Health and Safety (OH&S) and Environmental Management System in accordance with the requirements of ISO 45001:2018 and ISO 14001:2015 standards. The company aims to identify and prevent health, safety, and environmental hazards, aligning with the Kingdom's Vision 2030, which focuses on environmental preservation and resource sustainability.

The management is dedicated to ensuring the health and safety of its employees, while also ensuring that operations do not expose visitors or local community members to risks related to injuries, illnesses, property damage, or environmental impacts. Additionally, a "Defensive Driving Training and Driver Evaluation" policy has been developed to reduce road accidents by training drivers on standard rules and practices.

The company is also committed to achieving full compliance with applicable health and safety regulations, providing a healthy and safe working environment, and conducting regular health and safety training for its employees.

Financial Affairs

The financial management team at our company is responsible for overseeing the financial systems and processes that ensure its financial sustainability.

We are committed to ensuring that our financial framework is based on local accounting standards and international best practices. Our financial team works on accounting, management, analysis, and performance measurement, as well as preparing the necessary financial reports for internal and external entities. The accounting team collects and reviews financial data from various departments, ensuring alignment with allocated budgets and strategic objectives. Additionally, the team presents the company's annual financial results, reviews the financial statements prepared by external auditors, and prepares the annual budget along with the necessary resources for its implementation according to the company's strategy.

As a key pillar of corporate governance, we ensure that our operations comply with relevant financial policies and the requirements of the concerned government entities.

Maintenance

The maintenance management at Al-Mahajer Company aims to achieve the satisfaction of both internal and external clients by adopting the latest technologies and equipment in the quarry industry. Advanced maintenance methods are applied using modern technological tools and continuously trained specialized technicians. All assets are maintained according to the global standards of original equipment manufacturers, ensuring the use of genuine spare parts and specialized tools to guarantee operational continuity and equipment quality.

Maintenance operations include corrective, preventive, and predictive maintenance to ensure the highest levels of reliability and efficiency. Professional technicians supervise all operations in central workshops equipped with the latest tools. All system and equipment maintenance is handled accurately and systematically in a reliable working environment to ensure continuous production at optimal performance levels.

وفقه الله

صورة مع التحية / سعادة / المدير التنفيذي للإنشاءات بمحافظة جدة المكلف

المحترمين

السادة شركة عصام قباني وشركاه للإنشاءات والصيانة

...السلام عليكم ورحمة الله وبركاته، ...

بالإشارة الى الموضوع أعلاه والى خطابكم رقم S126/BAFEC/77 بتاريخ 2025/03/10 م بخصوص طلب اعتماد الاسفلت (شركة محاجر المتحده للمقاولات)

م	اسم المصنع	نوع المواد
1	شركة محاجر المتحده للمقاولات	الاسفلت

وبعد الدراسة والمراجعة لا مانع من اعتماد (شركة محاجر المتحده للمقاولات) لتوريد المواد المذكورة أعلاه على ان يتم عمل خلطات الاسفلت واختبارها من طرف ثالث قبل التوريد على ان تكون مطابقة للمواصفات والاشتراطات القياسية بشركة المياه الوطنية.

وتفضلوا سعادتكم بقبول فائق الاحترام والتقدير..

مدير المشروع

م/ ضياء الدين غباشي

سعادة مدير عام التشغيل و الصيانة بأمانة محافظة جدة

السلام عليكم ورحمة الله وبركاته ،،،

إشارةً إلى خطاب سعادتكم بالرقم (4500185106) بتاريخ (02/07/1445هـ) والمبنية على خطاب مجموعة شركات صالح سعيد طيشان و أولاده للمقاولات (الطرق الحديثه الصناعيه) بتاريخ (08/01/2024م) بشأن إعتقاد خلطة الأسفلت لطبقة الأسفلت السطحية (BWC) بنظام سوبريف (Superpave) التي يتم توريدها من خلاطة أسفلت شركة محاجر المتحدة.

نفيد سعادتكم بأنه تم أخذ عينات الأسفلت من خلاطة شركة محاجر المتحدة و تم إجراء إختبارات الجودة عليها في مختبر مستقل معتمد من أمانة محافظة جدة ، و بعد مقارنة النتائج تبين أنها مطابقة لمواصفات وزارة الشؤون البلدية و القرويه و الإسكان .

للعلم و الإحاطة و إتخاذ ما ترونه مناسباً

وتفضلوا بقبول فائق الإحترام والتقدير ، و السلام عليكم،،،

التوقيع

للمقاولات المحترمين

السلام عليكم ورحمة الله وبركاته ..

إشارة إلى خطابكم رقم ١٩٠٠٢٩٠٠/٦٩٦٥ وتاريخ ١٤٤٥/٠١/٢٧ هـ المبنى على خطابنا رقم ٤٤٠٣٩٥٠٤٢ وتاريخ ١٤٤٥/٠١/٢٠ هـ المتضمن
لخطاب المقاول شركة المهندسون المقاولون للمقاولات العامة بالتضامن مع شركة المهذل للمقاولات رقم ١٦٩٤٣/٣١ وتاريخ
١٤٤٥/٠١/٢٣ هـ بشأن استخدام خلاطة اسفلت شركة محاجر المتحدة لفترة محدودة لا تتجاوز (٢٠ يوماً) لتوريد خلاطة الاسفلت
السطحية (BWC) لمشروع تشغيل وصيانة الجسور والعبارات المستلمة من وزارة النقل داخل
النطاق العمراني لمدينة جدة المرحلة الأولى ١٦٩٤٣.

وحيث افدتم بأنه تم اخذ عينات من الخلاطة الاسفلتية المذكورة سابقاً وتم اجراء اختبارات الجودة عليها في مختبر
مستقل معتمد من أمانة جدة، وتبين لديكم مطابقة المواد المستخدمة بالخلطة الاسفلتية المقدمة من المقاول والمعتمدة
سابقاً من وزارة النقل.

عليه نفيديكم انه لا مانع شريطة التأكد من استيفاء الخلاطة لاشتراطات الجودة بصفة مستمرة وذلك من خلال اجراء
نسبة من الاختبارات خارج المكتب وفقاً للإجراءات المتبعة.
وتقبلوا خالص التحية والتقدير ...

مدير- عام الطرق والجسور

سعادة/ مدير عام التشغيل والصيانة

الموضوع :- بخصوص اعتماد خلطة أسفلتية من شركة محاجر المتحدة

السلام عليكم ورحمة الله وبركاته ,,,

إشارة الى مشاريع الشركة المتعاقد عليها مع أمانة محافظة جدة - الإدارة العامة للتشغيل والصيانة والتمتضمنة أعمال أسفلتية وبخصوص اعتماد الخلطة الأسفلتية للمشاريع على النحو التالي:

م	اسم المشروع
1	إستكمال إعادة تأهيل شبكة الإنارة وسط محافظة جدة
2	إستبدال شبكة الإنارة والكهرباء المتهالكة بمحافظة جدة - المرحلة الاولى
3	إستبدال شبكة الإنارة والكهرباء المتهالكة بمحافظة جدة - المرحلة الثانية

نأمل من سعادتكم التوجيه لمن يلزم بمراجعة الملف المرفق وإعتماد تصميم الخلطة الأسفلتية المذكورة أعلاه.

ولسعادتكم جزيل الشكر والتقدير,,,,,

شركة دلتا السعودية المحدودة
